There are 4 emotions presented: Happy, Sad, Angry, Afraid and they are expressed in songs, words, or faces.

There are 4 songs for each emotion

There are four male and four female faces for each emotion. Each song will be shown four emotion faces of different emotions. All emotion faces will be seen with each song emotion (i.e. there are four fear faces and four fear songs). This will mean there are 16 trials for each emotion with each type of target.
